

## Insulate your way to energy savings!

Insulating your home is the most effective way to save money and energy. By placing insulation in your attic and exterior walls, your home will be energy efficient through the cold months of winter and the hot months of summer.

Just 1,000 square feet of insulation can save over 1,500 kilowatt hours of electricity each year! Plus, when you use our **Weatherization** program you can earn great cash rebates for insulating your home. Our rebates, combined with those available from The Gas Company, can really add up.

It's also a good idea to replace old windows and doors. We offer rebates for installing highly insulated Energy Star® doors and windows.

*To find out more about how weatherizing your home can pay you back, visit [www.riversidepublicutilities.com](http://www.riversidepublicutilities.com) or call us today at (951) 826-5485.*

### DO YOU KNOW...

*that with your March utility bill you can receive a free shade tree?*

*Check the back of your March RPU billing statement for your 2008 Tree Power Free Tree Coupon!*
